

## Home Activities: Week Beginning 15<sup>th</sup> March

Dear Parents,

We are missing your children and hope they are all well and staying safe!

Thank you for your ongoing support and understanding through these difficult and uncharted times. We are as keen as you to get back to normality and we appreciate this may be taking longer than anyone could have anticipated. With this in mind please be assured we are covering all aspects of your child's academic needs through the home activities and ideas posted on the website as well as the printed packs which are available for you to pick up from the office.

Please do look at the links for on going activities and remember this is a great opportunity to let the children engage with and explore their environment. Do give them the opportunity to learn through rehearsal and repeating, imagination and play:

Yoga, music and dance activities

Here are some more suggested activities for this week. We hope you enjoy them!

Best regards,

Mrs. Smith and Mr. Usher

Writing a simple sentence: Always remember to use a capital letter, finger space and a full stop at the end of you sentence.

Here are some pictures of animal we find in the Arctic can you write a sentence about each of them? What can you see? What colour is the Polar Bear?  
You could write:

I can see a .....

I like the .....

The .....is brown.

I can see a black .....

Perhaps you can write some of your own sentences starting with

I can see..... or I like the.....

How about drawing a picture of the animals?

Can you find out which Arctic the animals live in is it the South Pole or the North Pole? Why do you think Polar Bears are white? Did you know their fur is actually translucent, what does 'translucent' mean?
