

IMPORTANT NOTICE

HEALTH ISSUES

I do not want to cause concern or overreact but, with the news of Coronavirus, it is advisable to be extra diligent in ensuring we are not passing on germs. To that end we ask that children are **NOT** sent to school with very runny noses or persistent coughs. This particularly applies to the younger children as they are not capable of wiping noses or containing their coughs in tissues and then ensuring their hands are clean. Children should not come to school with a temperature or flu symptoms. If your child is unwell in the morning, please do not administer medication and send them to school as this merely masks the symptoms and your child could be infectious. If in doubt, please seek medical advice.

Please note that, due to the current situation, we shall be extra cautious and send any child home who presents as being unwell.

Thank you
Mrs Whitford
